Marishka Glynne has been nominated for the Oakville Awards for Business Excellence! For more than ten years Marishka has been helping clients generate the success they seek in their business and personal lives. Using her uncanny intuitive skills, her professionalism and enthusiasm to inspire and motivate, always keeping a positive attitude, she propels passion and strives for excellence.

Marishka Glynne, an Intuitive Motivator, Speaker, Author, Accomplished Visionary has been nominated for the Oakville Awards for Business Excellence!

"How can I help you?" – Marishka's first question to anyone who asks for her guidance. Objectively, with honesty and integrity, quickly she defines the problems, goals and decisions to be made and is able to give her clients the big picture and the missing pieces to their jigsaw puzzle, allowing them to form an educated decision. Clients love her, and her gentle yet firm tough love. She is open, honest and does not believe in giving "band-aid" solutions. "I don't like what I am hearing, but I know it is the truth" are words she hears often. "People need to hear the truth from someone who is objective and not directly involved. There is only so much you can share with family and/or friends," she says.

Marishka's clients are from all over the world, and from all walks of life, including executives and entrepreneurs, and much of her Intuitive Counselling is over the phone! Clients feel comfortable with her, trust her confidentiality and give her many referrals. Marishka also makes presentations and conducts workshops, along with her consultations and coaching. As a writer, in addition to her first book "Psychic Soup", she is a contributing author to Steven Covey's book "Success Simplified" and also to Deepak Chopra's book "Roadmap to Success".
